

# What does VIAC CAN have to offer?

- A strong, well-established community of accomplished young professionals from around the world;
- Opportunities for intercultural exchange, sharing both experience and expertise;
- A platform to make a meaningful impact on the role of arbitration and mediation in your own jurisdiction;
- A supportive structure to help you bring your ideas to life;
- A collaborative, co-creative environment full of inspiration and fresh perspectives.

The VIAC Community Ambassador Network (VIAC CAN) was launched in February 2023. Since its inception, the initiative has grown significantly. What began as a regional effort has evolved into a globally recognised platform for professionals to exchange knowledge and explore opportunities.

# What does the Ambassador's role entail?

- Promote and support the practice of arbitration and ADR in your country or region;
- Represent VIAC at events, workshops, and conferences;
- Contribute to planning and organising high-profile legal events;
- Support communication efforts, helping to build bridges between VIAC and your regional legal networks.

As of now, VIAC has reached a record number of active mandates and has the privilege of collaborating with 56 Ambassadors across 39 countries worldwide.

# What are the qualification requirements?

- Qualified lawyer or sufficient legal training and experience in arbitration;
- Motivation and passion for ADR;
- Excellent English language skills (written/spoken);
- Residing in or having a strong connection to one of the jurisdictions of interest.

We are currently looking for Ambassadors in:

- **Poland**
- **Tajikistan**
- **Turkmenistan**

If you would be interested, please send us your CV and a motivation letter to [can@viac.eu](mailto:can@viac.eu).

*“We’re looking for individuals who are proactive and able to work independently in an international environment, while also demonstrating strong teamwork, interpersonal, and communication skills. Enthusiasm, flexibility, a willingness to learn, and a detail-oriented, reliable approach are key”.*

The VIAC CAN Team
